

2013 Membership Candidate Application and Instructions

The National Child Passenger Safety Board is a collaborative voice providing guidance for the safe transportation of children and ensuring the integrity of the child passenger safety training and certification program. The Board works collaboratively with the National Highway Traffic Safety Administration (NHTSA), who has the ultimate authority over the curriculum, and with the Safe Kids Worldwide (SKW) CPS Certification Program, who has ultimate authority over the certification and re-certification processes. The Board channels insight from their representative organizations to NHTSA and the SKW Certification Program.

Board Membership

The Board consists of up to 22 members — 10 who are appointed by their organization and 11 to 12 who are selected through the open application process. It is not necessary to be a certified technician to be a member of the Board. Members who are selected via the open application process are appointed to three-year terms starting the following January. Appointed members serve terms that are determined by their organization.
