

CPS Training Class Participant Vehicle Information

To assure the most effective child passenger safety technical training, a variety of vehicles and seat belt systems are needed for hands-on demonstrations, practice, and testing. Generally, vehicles of workshop participants are used for these exercises and for testing. Please discuss any concerns you may have about the use of your vehicle for class exercises with the Instructors.

Please provide the following information for the vehicle you are driving today.

If you have an alternate vehicle that you could bring for additional class day(s), please provide this information as well.

As much notice as possible will be given so that selected vehicles can be cleaned out if desired.

Participant's Name: _____

Year: _____

(Vehicle year of manufacture)

Make: _____

(e.g. Ford, Dodge, Chevrolet, Toyota, etc.)

Model: _____

(e.g. Taurus, Caravan, S-10, etc.)

Type: _____

(e.g., 4 door sedan, mini van, pick up, SUV, etc.)

Color: _____

License Plate: _____

(or other useful identifying information)

Please check if you know that you have:

☐ Driver air bag

☐ Automatic seat belts

☐ LATCH lower anchors

☐ Passenger air bag

☐ Integrated (built-in) child restraint

☐ Tether anchors

☐ Side air bags

☐ Side curtain air bags

Alternate Vehicle

Participant's Name: _____

Year: _____

(Vehicle year of manufacture)
