Emily Lee named to National Child Passenger Safety Board

Board ensures integrity and quality of national CPS Certification Training Program

Itasca, IL – The National Child Passenger Safety Board (NCPSB) is proud to announce the appointment of Emily Lee to its Board. Lee is an injury prevention coordinator in the Comprehensive Children’s Injury Center at the Cincinnati Children’s Hospital Medical Center. She will serve during the 2015-2017 term.

“Emily has dedicated her entire career to the well-being of our children,” said Amy Artuso, NCPSB secretariat and program manager at the National Safety Council. “We are excited to have her join our Board and help advance our mission of saving lives and preventing injuries.”

Lee has been a certified CPS technician for five years and an instructor for two. Lee became certified to meet a job requirement, but quickly realized she was passionate about keeping child passengers safe. Lee managed the hospital’s Safety Resource Center, selling products such as car seats, bike helmets, smoke and carbon dioxide detectors and safety gates. She played an integral role in moving the center from the emergency room to the hospital’s gift shop, where it has more visibility.

“I like to think this field chose me,” Lee said. “I love knowing that I’ve had a role in keeping a child safe when he or she is riding in the car.”
