

Set Video Options in PowerPoint

These instructions apply to all current versions of PowerPoint. **After making your changes to video options, save the file.**

Begin in PowerPoint's Normal view.

1. Select the video by clicking on it once.
2. Select the **Playback** tab on the Ribbon.
3. Select desired options:
 - **Play Full Screen.** The video will play in full screen mode during your slide show.
*Note: If you have not selected **Automatic** from the Start options, the video will not display full screen until you click on it during your slide show.*
 - **Loop Until Stopped.** The video will loop continuously until you click to stop it.
 - **Rewind after Playing.** Automatically rewinds the video after it finishes.

If you want the video to play automatically during your Slide Show, begin in PowerPoint's Normal view.

1. Select the video by clicking on it once.
2. Select the **Playback** tab on the Ribbon.
3. Use the **Start** drop-down menu to select **Automatically**. The video will begin as soon as the slide opens in Slide Show view.

To adjust video volume:

4. Select the **Volume** button to view options; select your preference.
