

Drivers + Pedestrians + Parking Lots + Distraction

= Deadly

Tens of thousands of crashes occur in parking lots and garage structures annually.

Parking lots are riskier than you think...

66% of drivers nationwide said they would make phone calls while driving through parking lots.

National Safety Council public opinion poll

ALWAYS LOOK

before you **LOCK**

22%
of hot car deaths involving children occur at a place of work

PEDESTRIANS—

- Keep an eye out as you walk. **Look** and **listen**.
- If you see an unattended child in a vehicle, call 911. Have someone else search for the driver or ask the facility to page them.

CAREGIVERS—

- Open the back door of your car every time you park.
- Secure your phone, purse or briefcase in the back next to your car seat to ensure you look in the back before heading into the office.
- If someone else is driving, check to make sure your child has arrived safely.

WALK.

WATCH.

Don't talk!

Pedestrians, just like drivers, should remain attentive and avoid distractions.

EVERYONE is a PEDESTRIAN

At some point in the day, everyone is a pedestrian. Unfortunately, more than 6,000 pedestrians die in crashes every year.*
